Hi Krishna,

We are transferring the NPDES permit coverages under the Cook Inlet GP from Chevron to Hilcorp. They should be ok from the water permitting side.

Subject: Fw: Cook Inlet Operating Permits

Looks like we've got a customer. It got delayed in my email. I was sick that week and then on travel.

Doug,

Can you please talk with this gentleman and find out what type of permit he may need and steer him in the right direction.

Does he also need any water permit?

Subject Cook Inlet Operating Permits

To whom it may concern,

Hilcorp has recently purchased 10 of the cook inlet platforms from Chevron and we are evaluating bringing in a modular type SCR drilling rig to replace several of the outdated drilling rigs currently on the platforms.

СС

I wanted to investigate the Region 10 Title V permit. Are there any other EPA permits we would need to file to conduct this type of operation in the inlet?

Any help would be greatly appreciated.
